“The oceans are rising. The storms are strengthening. The climate refugees are fleeing. The droughts are intensifying. The planet is warming. What are we going to do about it? What is your responsibility as a citizen of the world? How far should we as a nation go to protect our planet?”

“If I want to have influence today, I need to be able to use the tools of this time, and one of the most important tools is art. Art and genuine expression is like a truth space. I realized that if I could do something that contributed to the arts, it could be seen worldwide, it could influence people. Imagine if we could make love go viral? Kindness go viral? Support for your friends go viral? I think art can help us to do that.”
